

# FIRST Tech Challenge Storefront Kit and Price Options

Revision History	
Revision	Description
25-26.1	Initial 2025-26 Season Release
25-26.2	Updated Electronics Set to Electronics Kit
25-26.3	Updated formatting and added more login instructions

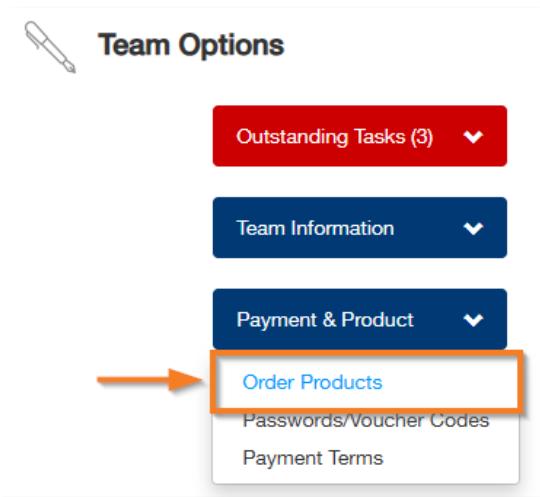

## Purchase Process

To purchase items, please visit your team Dashboard: <https://login2.firstinspires.org/Account/Login>.

Under “team options” expand the “Payment and Product” drop down and select “Order Products” to access the Pistco Storefront to purchase materials.

There are a few choices you will be able to make to select the kits that your team needs.

If you have any questions about registering your team or ordering product, please reach out to us at [ftcteams@firstinspires.org](mailto:ftcteams@firstinspires.org).

If you are waiting for a grant, please DO NOT check out until after that grant has been awarded. FIRST will not be able to make changes to orders after checkout.

### Step 1: Pay your \$325 registration fee.

Your season team registration includes:

- Official FIRST Tech Challenge team number.
- Ability to register and compete in official FIRST Tech Challenge events.
- Access to the FIRST storefront for discounted control system components and robot kit of parts.
- Ability to compete for team awards and submit Dean's List nominations
- Participant/alum access to career discovery opportunities, connections to scholarships/employers, and a place in the FIRST community for life.
- Access to community forums where teams can get expert help with control system questions.
- Access to resources for team management and career readiness.

### Step 2: Select the Driver Kit, \$285

The Driver Hub in the Driver Kit transmits commands and serves as the driver's station and robot controller. (Limit one per register team per season)

- FTC Legal Gamepad (2)
- REV Driver Hub (1)
- FTC Legal Webcam

### Step 3: Select the Electronics Kit, \$325

The modules in the Electronics Kit control the flow of information to and from the various components on the robot. (Limit one per register team per season)

Electronics Modules and Sensors Kit V1.1 includes:

- REV Robotics Control Hub
- Smart Robot Servo
- Switch Cable and Bracket
- Color Sensor V3 with cable
- Touch Sensor with cable
- Resistive Grounding Strap
- FTC Control Hub Cable Pack
- M3x16 screw pack and nylock nuts

### Step 4: Select the Build Kit \$650

The Build Kit provides the structure and locomotion for the robot. (Limit one per registered team per season)

**REV FIRST® Tech Challenge Competition Set V3.1 – [Kit contents available online.](#)**

### Step 5: Choose a Game Set (Optional)

Select an AndyMark game set for the 2025-2026 DECODE™ presented by RTX game! Teams may order a full game set, a half game set, field soft tiles, and a perimeter kit through our FIRST Tech Challenge Storefront.

The full and half game sets will start shipping the week after FIRST Tech Challenge Kickoff, on September 6, 2025
